

CE Courses

Last Modified on 04/05/2023 11:43 pm EDT

The CE Course module in EventsAir lets you manage all of the Continuing Education (CE) courses for associations, colleges, universities and other organizations that require CE, and track the credits or points awarded for each.

You can classify the courses in different ways, including subject, category, instructor, location or fee type. There is also a portal for students and instructors to find information they need.

The areas you will be setting up are:

- [Preferences](#)
- [Payment and Cancellation Policy](#)
- [Classifications](#)
- [Course](#)
- [Optional Course Tabs](#)
- [Credits](#)
- [Course Locations](#)
- [CE Discount Codes](#)

Click on each of the above sections to learn more about setting up and configuring CE Courses in EventsAir.
