

# Review Panel

Last Modified on 05/30/2022 7:27 pm EDT

Review panels are groups of reviewers that you organize into a specific panel. This is useful for creating Review Panels specific to certain themes, topics or other criteria you would define. For example, you could create Review Panels for:

- Medical Presentations (and Themes)
- Sales Presentations (and Themes)
- Educational Presentations (and Themes)
- Anything you could imagine!

Just like adding Reviewers, you simply select from your list of existing Reviewers, or you can add additional reviewers by entering their details or selecting an existing Attendee's Contact details in your database.

**Please Note:** EventsAir will not allow a presenter to also serve as a reviewer of their own presentation. If the reviewer is part of a review panel, that reviewer will be automatically removed from reviewing their own presentation.
