

# Creating Interactive Workshops

Last Modified on 06/02/2022 5:20 pm EDT

## Interactive Workshops

Interactive Workshops are like sessions except that all participants can speak and share screens with all other participants. This is like a Zoom meeting where all participants can interact with each other.

### Setting Up an Interactive Workshop

1. Create your **new session** in EventsAir.
2. Open the **OnAIR Tab**.
3. Enable **Live Streaming**.
4. Select the **Live Stream Access** you want to assign for this session.
5. Choose **Interactive Workshop** for Delivery Mode.
6. Select your **Pre-Opening Option**.
7. If required, choose to **disable automatic session end** (this affects the rest of your schedule)
8. If desired, you can choose to make a **pre-recorded video** available to attendees in the OnAIR Portal.

If you enable this option, you will also need to select the **video platform** and the specific **video ID** for your pre-recorded video.

1. Choose the **Live Streaming Platform** you want to assign to this Interactive Session.
2. Select **Save** to save your settings.

The screenshot displays the 'Session Setup' interface with the following sections and options:

- Details** | **AV** | **Roles** | **Reviewers** | **Sponsors** | **Run Sheet** | **OnAIR** | **Access Control** | **Advanced**
- Enable Live Streaming** (checked)
- Live Stream Access (OnAIR and App)**
