

Virtual / Hybrid Functions in the OnAIR Portal

Last Modified on 04/18/2023 7:57 pm EDT

The Functions section is extremely simple because it only allows you to enable the Meeting Hub Widget.

Please click on [this link](#) to access any other information on how to set up Virtual Functions.

Meeting Hub Widget

- **Enable Meeting Hub Widget** — select this option to enable the Meeting Hub for this specific function. Using Meeting Hub, attendees can connect with each other, share contact details, request meetings and hold chats and instant meetings as needed
-
