### AirTime 2024 – APAC registrations about to close!

It's three down and 1 to go – our AirTime team has just wrapped up a series of highly successful conferences in North America and Europe, including a sold-out EMEA event.

Industry professionals are already planning their attendance at next year's AirTime, based on how much they've enjoyed the networking, insightful sessions and strategy reveals, including an exclusive preview of the 2025 Product Roadmap, hands-on Masterclass sessions, and our focused Industry and Product "Powerstreams", delivering valuable insights in a condensed format.

The final event of the year, AirTime APAC, will take place on December 4–5 in Brisbane, Queensland. With only a few days left until registration closes, now's the time to secure your spot. [Don't miss out—register today!](#)

### Get the lowdown on our uplift

Our November Education webinar was held a little earlier than usual, so if you missed it, we chatted with our UX Lead, Warren Prasek, all about the new design and how it'll help you be more efficient.

[You can watch the recording and read the Q&A in our education webinar library.](#)

There are also a few more tweaks and improvements to come in the release being rolled out next week – keep an eye on your email inbox and look under our [Version Info](#) section for more information.
