## Exhibitor Handouts

These documents are briefings showing exhibitors how to access their stand, use the exhibition stand functionality during exhibition hours and how to create live stand presentations. The 3D Mode handout also reviews how to customize their 3D stand, if that functionality is enabled.

- Virtual Exhibition
- Gamification and social networking

#### [03 3D Attendee Explainer Video No Poster Session No Exhibition](#)

- Core Features
- Meeting Hub
- Gamification and social networking

## Attendee Explainer Videos

The following Attendee Explainer videos are yours to use as a way to introduce the OnAIR platform to your attendees. These videos can be shared via an email link to the video you've uploaded to YouTube or Vimeo, or embedded as an On-Demand video directly in OnAIR. Just right click to download these to your computer!

The following list is a selection of Attendee Videos with different content because every event will have different functionality and features that are included.

Please contact us at [eaeducation@EventsAir.com](mailto:eaeducation@EventsAir.com) if you do not see an Attendee Explainer Video with the combination of features you are offering and we will try to add it to our ongoing production schedule (delivery not guaranteed).

Additionally, you may request a custom explainer video with either just new images or with a new narration as well. The cost of these videos are determined by the amount of time it takes to create new content and if needed, arrange a new narration (either from our voice talent or provided by you).
