

# Version 15 SP2 – March 16, 2023

Last Modified on 03/10/2024 7:20 pm EDT

We're always looking for ways to make product improvements within the platform and ensure that we communicate transparently with you about where those improvements are being made. This service pack includes resolutions to more than 50 reported issues from various areas of EventsAir — and we've documented each of these below. If you would like any further information to any of these items, please reach out to our support team [here](#).
