Last Modified on 12/10/2024 2:17 am EST

NOTE: EventsAir Version 16 is here and if you've already updated, your screen won't look exactly like this video. In the newer version:

- The event selection screen (opening screen) is cleaner, and Global Tools are under the Menu button.
- The Navigation menu (in an event) is on the left-hand side .
- Some tools have now been grouped (e.g. Attendee Action Buttons in the Attendees Panel are now all under the "Actions" button, top right).

After a changeover period, all our videos will be updated.
