Accommodation module (setup)

Last Modified on 04/08/2024 2:29 am EDT

EventsAir provides a powerful accommodation management system to help when organizing lodging for your event attendees.

You can:

- Monitor reservations for multiple hotels.
- Manage hotel inventories (per room type, and across an entire hotel).
- Generate reports to see attendee arrivals and departures.
- Provide a portal for your hotel partners to access relevant booking information.
- Securely process credit cards for hotel deposits.
- Organize and manage sub blocks for groups.

The Accommodation module includes:

- Preferences
- Payment and Cancelation Policy
- Hotel Setup
- Sub Blocks
- Discount Codes
- Room Release Schedules
