

External Payment Processors / Payment Gateways

Last Modified on 12/08/2024 7:19 pm EST

Although we do our best to keep information regarding payment providers up to date, the information below is subject to change due to factors outside our control.

The information below is offered for your convenience, and not all options listed are available in all regions – please do your own due diligence before making a selection, and speak to your account manager to confirm that your chosen option is supported in EventsAir.

Additional fees and charges may apply.

While we're able to support a range of payment options, for both security and service quality reasons, we limit the number of payment options we can support in EventsAir. [You can read more here.](#)

EventsAir Pay

Generally, three-tier gateways offer a high level of security and allow responses to be encrypted so that these gateways aren't vulnerable to cardwashing attacks.

EventsAir Pay provides the enhanced security of a three-tier gateway AND your attendees don't have to be redirected to an external payment page. Therefore we recommend EventsAir Pay for increased security and convenience. It's also easier for attendees to register. There are two options:

EventsAir Pay – Airwallex

EventsAir Pay – Stripe

If you're NOT using EventsAir Pay, below are the other external 3-tier gateways that will be available to be used in EventsAir:

Other 3-tier Payment Gateway options

ANZ EGate South Pacific (Fiji/Samoa/ Cook Islands/PNG) – ANZ
