

# Can I choose any image as the icon for the Attendee App icon on a device (home screen)?

Last Modified on 09/27/2024 4:36 am EDT

The default app image is part of the standard Attendee App.

If you'd like your own unique image to appear as the app icon on your attendees' devices, this is possible by getting a Custom Branded App, which is a quoted service – please talk to your account manager for more information.
