

Can I show the Project Manager in the Organizer App?

Last Modified on 09/27/2024 4:38 am EDT

Because Project Manager is for long term advance planning (before your event), it's not designed to be added to the Organizer App.

Instead, you can add the Run Sheet Module (Run Sheet and My Run Sheet) into the Organizer App, for efficient management of specific tasks:

The screenshot displays the 'Cyber Education International - 15th Annual Summit Organizer App' Builder interface. The interface is divided into two main sections: a left sidebar and a main content area. The left sidebar contains a list of modules, including 'Engage Points', 'Agenda', 'Run Sheet', 'My Run Sheet', 'Team News', 'Organizer Alerts', 'Event Alerts', 'Quick Reports', and 'Publish App Alerts & News'. The main content area contains a list of modules, including 'Log Out', 'Quick Reports', 'Run Sheet', 'My Run Sheet', 'Attendees', 'Agenda', 'Event Check-In', 'Function Check-In', and 'Session Scan In'. A red box highlights the 'Run Sheet' and 'My Run Sheet' modules in both the left sidebar and the main content area. At the bottom of the interface, there are four buttons: 'Preview', 'Clear', 'Delete', and 'Save'.
