

# Why is an abstract or paper not showing in the Presentation Portal?

Last Modified on 11/25/2024 3:51 am EST

Usually this is because the abstract or paper has a theme or presentation type that doesn't match the Presentation Portal settings.

1. Go to the **Online Panel** and open the **Presentation Portal**.
  2. Click on the **Settings** tab.
  3. Scroll down and review the **Available Presentation Types** and/or **Available Themes**.
  4. Select the presentation type or theme that's missing.
