

Why aren't scanned leads showing in the Exhibition Portal, when they're on the Attendee App?

Last Modified on 11/25/2024 1:22 am EST

This means the exhibitor has been given a stand **type** instead of a stand **number**.

Change the existing stand on the exhibitor's record from a stand type to a stand number.

Be sure to change the **existing** stand on their record – don't create a new one or the scanned leads will be lost.
